GSL GROUP

FULL STACK DEVELOPER

GSL Group includes a wide range of businesses including Real Estate Development, Holdings and Construction (Commercial, Industrial, Residential and Sports & Entertainment Facilities), E-Commerce, Sports and Entertainment, Travel & Hospitality, Food & Beverage, and Agriculture. With a wide range of portfolio, we are looking at different ways to disrupt and add value to traditional industries. Whether we are creating new products or expanding on our existing product, people at GSL are always up for a challenge.

Our Vancouver office is seeking a Full Stack Developer who can thrive in a fast-paced and autonomous work environment. This person's focus will be assisting in the expanding and launching of our new product in the music and entertainment industry with the Tech team.

RESPONSIBILITIES:

This multi-faceted role will have a number of accountabilities, including but not exclusive to those listed below:

- Identify issues and implement solutions to complex problems of backend infrastructure and mobile platforms
- Working alongside Product Managers, Developers, and Designers to create an optimal user experience
- Working effectively in an entrepreneurial/start-up environment that is fast paced
- Demonstrating strong accountability for code quality to ensure seamless deployment of new features and products to our loyal users

REQUIREMENTS:

- 3 to 5 years of development and design experience with responsibility ownership across all the features
- Bachelor's degree in Computer Science or related field
- Coding is the primary requirement, experience writing clean code that performs well at scale
- Depth of knowledge and experience in languages like .NET C#, JavaScript/TypeScript libraries, frameworks and tools
- Design cloud solutions using microservice architecture and other techniques
- Experience in building modern, single-page or progressive web apps
- Experience in building and maintaining RESTful services
- Manage both the code, infrastructure and CI/CD
- Experience in debugging and monitoring services
- Work collaboratively in an Agile team to plan and execute at high velocity
- Experience with mobile app development is an advantage
- Team player, with strong collaboration skills

COMPETENCIES:

- Thrives in a diverse, entrepreneurial environment
- Possesses strong interpersonal and communication skills
- Lifelong learner motivated to continue to learn and develop
- Highly innovative and enjoys exploring new solutions and technologies
- Critical thinking and problem-solving skills

Compensation: will be commensurate with experience.

Job Location: Vancouver
